# OASIS MISAAL HONOURSHIP : OBJECTIVES AND OVERVIEW

Education system provides only subjective knowledge to gain a diploma or degree, and not helping to get a real crush of life. So, today's generation becomes paralyzed and they are not been able to take even a small decision on their own. They always live in social pressure.

Especially in our Indian society most of the youths are not getting enough freedom to make their dreams come true & their thoughts/opinions are not given importance in the family. So, youths become dependent.

Oasis believes that youths need a platform to build strong character and to have the freedom to make decisions with one's own choices for future life. They can make mistakes and learn from it. With this process, they are able to see their inner strength and work on it. They get freedom from the conformity and able to do something different for the society as well as the country.

**Misaal Honourship** is a uniquely designed Leadership Project of Oasis for youths, who have a dream & a strong desire to do something for Society/ Country. It is a platform to build oneself for Leadership in one's talent area.

Here, Honourship is like a scholarship or a fellowship where financial support is extended to all participants, along with education and training in life-oriented themes. It is a 2-5 year residential/ full-time course which focuses on the overall growth of the student to become a true leader in his or her talent area. All other expenses or resources are also provided to the participant. In addition to this, honorarium will be given at the end of completion of 2 years of Oasis Misaal Honourship. Post completion, the participant can pursue any career for the betterment of the nation or become a social welfare entrepreneur.
